BENEFITS OF USING THE A.C.E. PROGRAMME

When you choose AEE, you get more than an organisation that just sells curriculum. You get a Christian team of professionals who are committed to supporting all your educational needs. Being part of not only a South African family, but also the A.C.E. international family, has many privileges and rewards. Included in these benefits are the following:

1. The use of quality and Biblically based Learner and Teacher Support Materials (LTSMs) including Package of Accelerated Christian Education (PACE) materials and supporting products available from Accelerated Distributors, our local warehouse in Durban.
2. AEE has a committed curriculum development department that is continuously developing and updating LTSMs to meet the requirements of the Department of Education in South Africa, and to stay on the cutting edge of education.
3. Each Homeschool also registers with a Homeschool Academy in its province. Academies maintain a cumulative academic record for graduation purposes for learners being home educated. They also conduct monitoring to maintain quality and consistency in progress, for the benefit of both parties.
4. You may use our DVD Library for hire in Math, Physical Science, Chemistry, Biology (Life Sciences), Physics and Speech Illustrated, should your Host Academy not offer this service.
5. AEE will keep you in touch with current educational issues and developments through the Accelerator (our quarterly school magazine), Alerts (email communication), quarterly regional meetings, and annual Educators' Conventions.
6. Government liaison by professional staff at AEE is undertaken on your behalf.
7. Provided the Graduation Handbook guidelines are adhered to, you have the wonderful privilege of having your child graduate on the A.C.E. Programme. This certificate may allow learners access to universities of technology, colleges and leading South African and international universities based on merit and individual institutional requirements. (See Graduation Handbook for more details.)
8. In support of a Host Academy, AEE has also appointed EduZone Regional Managers in each province for customer support. Each Manager is running, or has run, a successful school. Not only are they highly qualified, but they are also dedicated Bible believers.

OUR UNIQUE APPROACH TO HOME EDUCATION

1. Due to the individualised approach of the A.C.E. Programme, which places emphasis on the learner learning rather than the teacher teaching, the materials are easily implemented in a homeschool environment. As a result, the parents find the self-instructional materials easy to work with.

1. From preschool to Grade 12, each learner discovers how to set goals and meet deadlines, allowing him/her to experience a sense of accomplishment daily.
2. Our programme is designed to help learners develop critical thinking skills and to think creatively and independently.
3. Through daily personal attention, and the use of the A.C.E. Home Education Programme, your child will develop in character, academic competency and self-discipline.
4. Each homeschool is registered with a Host Academy in its province. Host academies provide a support service and are available by email and phone to assist you to give your children the best education possible.
5. Quarterly visits to the Host Academy ensure that your child's education is on track and that academic balance and excellence are maintained.

HOW DO I SIGN-UP MY HOMESCHOOL WITH AEE (Pty) Ltd?

- Register with the closest Host Academy in your province, which will then facilitate your sign-up with Accelerated Education Enterprises (AEE). *(T&Cs apply)*
- Submit a transfer card from your child/children's previous school.
- In the event that your child/ren were in a school using the A.C.E. Programme, submit a letter of release from the previous school/s.
- Complete application forms.

Please contact the Host Academy closest to you for a detailed information pack.
